

## **Local Animal Control Agencies and Rescues**

*If an animal on a roadway poses a hazard to drivers and itself, please notify 911 or the county sheriff.*

*If an individual has found an animal or has a concern about an animal that is outside of the city limits of the animal control agency nearest to them, they may contact their local city hall or non-emergency sheriff department for more information. The local sheriff department may either perform a “welfare check” or give them additional resources.*
